Siam Ebony island unit with matching end panels; worksurfaces and splashbacks

ARTIS BOHEMIAN

Accentuated by their chunky 50mm depth, Bohemian surfaces introduce structure and panache to contemporary kitchens. Alloy or Black 3D edges connect with appliance, sink or door metalwork, fusing their high tech ambience.

Bohemian's modular ABS edge concept eliminates on site finishing in most kitchen schemes, making installation fast and simple. ABS edges are extremely hard wearing, allowing the sharp definition of a true square edge without the vulnerability of chipping.

Splashbacks and upstands are available in all surface designs for a total look and hygienic low maintenance finish.
